Door HM 64-KN • Sidelite HS 12-KN

Lasting Elegance begins with SafeGuard™

Your Entryway Will be Enjoyed

long after the installation. Whether you select the beauty of a smooth finish or of a textured wood-grain stained finish, your SafeGuard™ entrance will be the focal point of your home and neighborhood.

Enjoyment

- Elegant color finishes; inside & out.
- 45 beautiful unique entry door styles.
- Captivating choices in glass and hardware.

Security

- Reinforced ball bearing hinges resist prying.
- Heavy steel construction door resists plumber torch cutting.
- Steel 14 gauge internal steel reinforcement resists kick-ins.

SafeGuard™ Exterior Doors

make home improvement projects come to life with durable construction, beautiful finishes, captivating glass and hardware, custom sizes in a broad range of styles.

Efficiency

- Pressurized foam core insulation reduces energy waste.
- 2 ½ times more insulating value than ordinary wooden doors.
- Full perimeter polymer thermal break between door panels.

Durability

- Limited lifetime warranty.
- 20 gauge steel surface is 30% thicker than 'home center' doors.
- Strong dent resistant solid-core engineering.

Optional Fiberglass

Fiberglass Advantages

Deep Woodgrain Texture

- For either paint or woodstain, our Deep-Profile fiberglass texture provides a pronounced grain pattern.

Foam Core

- Advanced Polyurethane Foam insulation.

Composite Stiles and Rails

- Gives our Fiberglass doors added waterproofing and moisture resistance.

Additional fiberglass door designs and glass options are available. See pages 12 and 13.

Patio Doors

These two HM 64-VC doors are featured in a Hinged Fixed-Panel Patio Unit.

The HM 64-VC Door Has Clear Glass Inside and Outside for breathtaking patios.

Two HM 64-VC Doors in a Patio Unit

Frosted Glass, Wrought Iron

Frosted Glass

- For privacy the inside glass pane is frosted (except that the HM 64-VC is clear for optional use as a patio door).

Wrought Iron

- Each iron design is made of Black Wrought Iron for superior security and classical beauty.

We have not forgotten your best friends. A pet door can be added to doors without bottom embossed panels such as this HM 26.

Internal Reinforcement

Thick Steel available in
Smooth or Textured Surface
with a Baked Enamel Finish

Door HME 32-W • Sidelite HSE 32-W

*Beauty, the security of advanced design,
and the guarantee of a lifetime!*

Limited lifetime warranty SafeGuard™ steel doors are warranted not to rust, warp, split, shrink, crack, or delaminate for as long as you own your home. See warranty for additional details.

Dual U-Channel Steel Door Edges

- Manufactured to width; not a cut-down slab.
- Lasting three-dimensional stability.
- Increases structural strength against warping.
- Resists splitting from break-in attempts.
- Thermal break keeps outside temperatures out.
- No exposed edges.

Steel 20 Gauge Surface

- Your choice of smooth or textured surfaces.
- Thick steel resists plumber torch break-ins.
- Reinforces the dead bolt and knob latch.
- 30% Thicker than builder doors to resist dents.
- Available with a textured steel surface.

Ball Bearing Security Hinges

- With interlocking tab to resist pry-attacks.

Full perimeter stiles and rails

- Adds hinge, lock and installation holding power.

Adjust and Lock Threshold

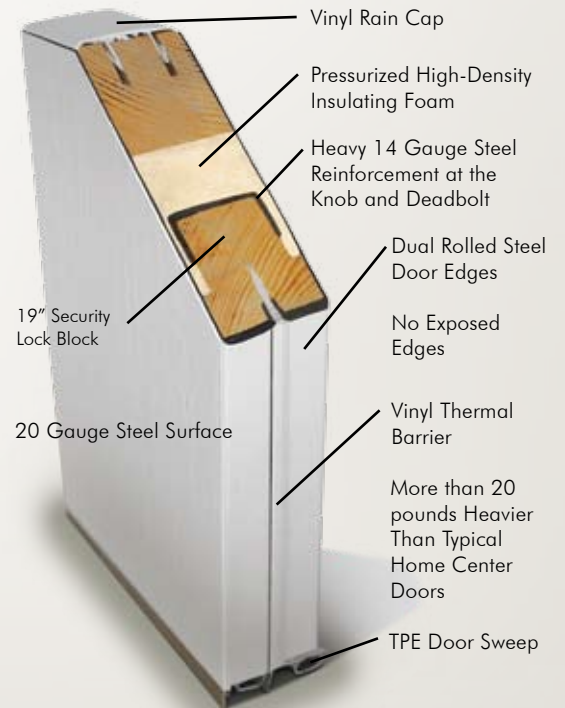

- Adjusts to reject rain and air penetration
- Thermal break keeps outside temperatures out.

19" Security Lock Block

- For additional lock and dead bolt security.

Flexible Seals

- TPE door sweep keeps out drafts and dirt.
- Magnetic core weather-strip locks to your door.

Magnetic Weather-strip
for positive air seal.

With Thermal Break

Frame Your Creation

New Construction Jamb

Standard framing includes your choice of either a primed wood jamb, or a white painted steel replacement frame. Modern engineering provides a solid foundation for your new entryway with additional options.

Smooth Vinyl Jamb Material, Optional
May Be Finished With Any HMI Paint
(Painted White Standard)

Textured Vinyl Jamb Material, Optional
(Beige Prime Color Standard)
May Be Finished With Any Hmi Paint,
Or Wood Stain.

Primed Wood Jamb - Standard

- Standard wood with white primer, ready for paint.
- Allows for easy finishing by your professional installer.
- Easiest to refinish or rework.

Durable Vinyl Jamb - Optional

- Vinyl Jamb resists water absorption.
- Solid center excellent for humid or wet conditions.
- In smooth or wood-grain textured surface.
- Can be finished with 30 HMI colors.
- Textured vinyl can be painted or stained.
- Has the holding power of wood for screws and nails.
- Performance of paint and stain exceeds that of wood.

New!

Exclusive From HMI

Patented Ultra-Frame™
Reinforces The Knob
& Dead-Bolt Locks
and Includes Reinforcement
At The Security Hinges

Ultra-Frame™ Reinforcement - Optional

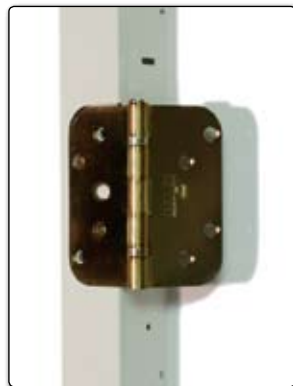

- Provides enhanced security for your home.
- Reinforcement for dead bolt, knob bolt, and hinges.
- Hidden heavy 14 gauge reinforcing steel.
- Available in either the wood or vinyl new construction jamb.
- Steel mounting plates for ball bearing security hinges.
- Special "L" shape provides 3-Dimensional strength.
- Hidden behind the jamb for a seamless appearance.

New!

Steel Replacement Frame

Lock Side

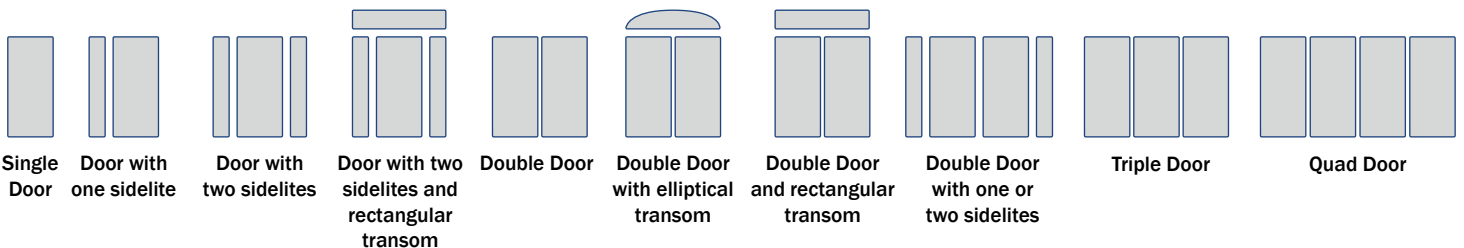

Hinge Side

Sleek and Strong

- Provides enhanced security for your home.
- Slides directly into your existing opening.
- Creates incredible strength.
- Does not disturb existing opening construction.
- 18 Gauge steel jamb reinforcement.
- Added reinforced steel both at the knob lock and dead bolt lock.
- Three ball bearing security hinges to resist prying attacks.
- Pre-drilled holes for accurate mounting.
- Available in 30 different HMI colors.

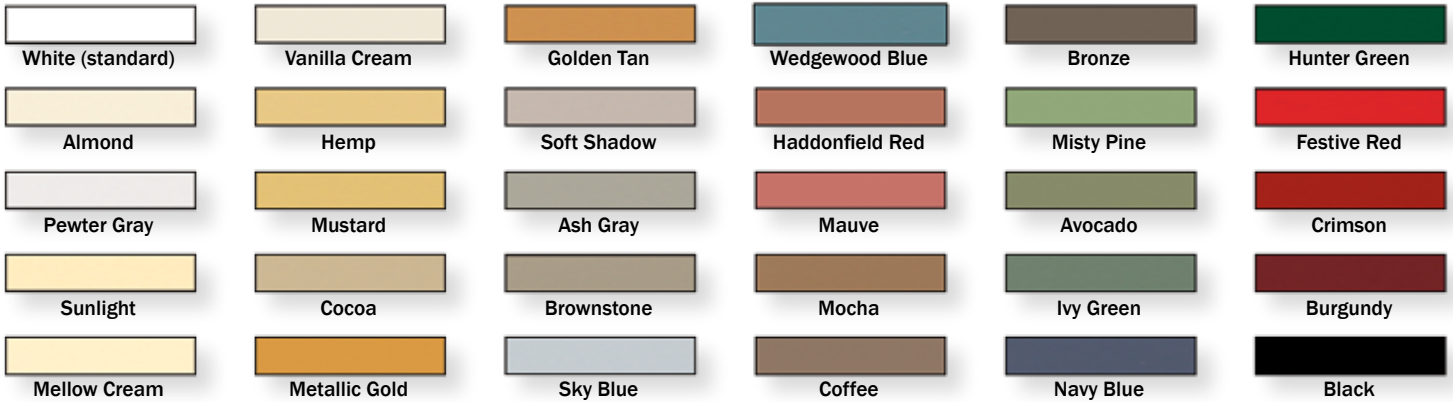

Available Jamb & Frame Unit Options

Select a new construction jamb - and your doors, sidelites, and transoms will be built into a completely new construction jamb unit. Or select a steel replacement frame for your single door or french door, and place your new sidelite or transom selections directly into the existing construction jamb.

Distinctive Finishes

Paint Finishes

Stain Finishes

Two Different Sides of Color!

Choose one finish to enhance the outside of your home -- and choose a different finish inside to highlight your home decor. All of these beautiful paint and stain finishes may be selected for either Safeguard™ doors or fiberglass doors

Frame Color:

To match most popular interior trim & door jamb colors, standard steel frames are white.

Stop Sets:

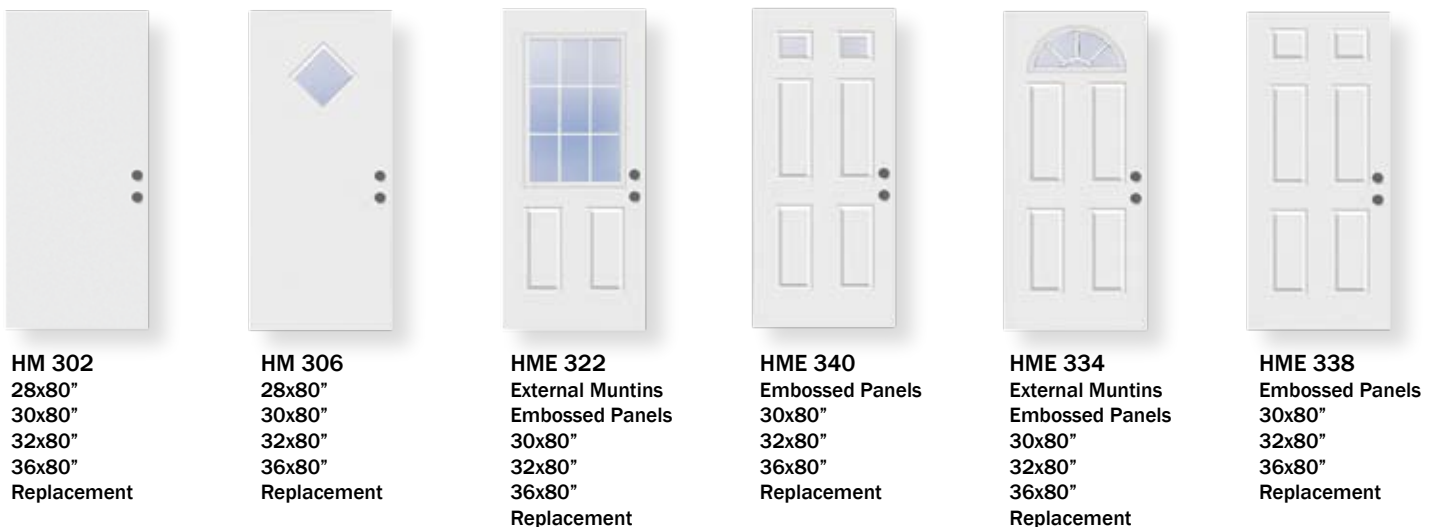

Painted white standard. Color options available.

Paper printed colors will not match actual paint. For closer color accuracy please use SafeGuard™ Color Chips

New! All HMI Stain Finishes Feature A Beautiful And High Gloss Outside, And A Soft Satin Varnish Inside.

SafeGuard™ Quick-Ship

Pick-up these SafeGuard™ doors – or have them shipped in 5 working days – Guaranteed! These smooth white finish doors are ready now, in replacement L-frames.
